Hi Stephanie,

We need to make some changes/corrections to the San Jacinto cover letter and add the following:

Carlos,

Just one comment – next to last paragraph says sampling results will provide information on the extent of contaminants released. Prior info we put out said sampled “to confirm no materials have been released from the site.” So, we could say for Carl’s letter:

“Laboratory results from the sampling that accompanied the repair will be available for review in February 2016 to provide information regarding ~~whether any~~ **whether any** the extent that contaminants were released.”

Here is the list of the persons that attended, add to the letter where Carl left blanks.

Terry O’Rourke – Special Counsel, Harris County Attorney’s Office;
Bob Allen, Director of Harris County Pollution Control Services Department
Sarah Utley, Deputy Division Manager, Harris County Attorney’s Office
